

COLLEGE AND UNIVERSITY CAMPUS **WAYFINDING**

An extensive range of products
to suit any college campus

Helping to promote safer & healthier college campuses

College & University Campus Wayfinding Signage

Wayfinding systems are the key to promoting walking and cycling to students, faculty staff, and visitors by helping them navigate around the campus on foot or bike.

With user friendly, easy to use detailed maps showing which routes and directional path to take. With significant health and environmental benefits, wayfinding encourages walking as an alternative method of transit, reducing congestion, greenhouse gas emissions, air pollution and creates cleaner college campuses with cleaner air.

Key Benefits
